Offers a higher level of material that goes beyond calculation skills for children in the primary grades.

Spectrum Math for grade 7 keeps kids at the top of their math game using progressive practice, math in everyday settings, and tests to monitor progress. The math workbook covers algebra, geometry, statistics, proportions, ratios, and more. A best-selling series for well over 15 years, Spectrum still leads the way because it works. It works for parents who want to give their child a leg up in math. It works for teachers who want their students to meet—and surpass—learning goals. And it works to help children build confidence and advance their skills. No matter what subject or grade, Spectrum provides thorough practice and focused instruction to support student success.

"Level 6B covers: distance, time and speed; radius, diameter, and circumference of a circle; pie charts; area and perimeter; volume; challenging word problems"--P. [4] of cover.

"Comprehensive reviews -- Proven Test Strategies -- Practice Test Questions."--Cover.

Want to develop better math skills when working with word problems? This updated edition can help anyone who wants to improve scores, supplement a current course of study, or brush up on basic problem-solving skills before taking a standardized math test. 501 Math Word Problems provides what people need most to improve their basic math skills quickly and effectively-practice! Gaining familiarity with this specific question type is a proven technique for increasing test scores. This book allows the student to implement a step-by-step approach to each math word problem encountered, avoiding the possibilities for careless mistakes. The format makes this book a valuable study tool for the SAT, GRE, GMAT, and other standardized tests.
