At the core of A Burglar's Guide to the City is an unexpected and thrilling insight: how any building transforms when seen through the eyes of someone hoping to break into it. Encompassing nearly 2,000 years of heists and break-ins, the book draws on the expertise of reformed bank robbers, FBI Special Agents, private security consultants, the L.A.P.D. Air Support Division, and architects past and present.

A Burglar's Guide to the City --Alex Boztkovic, The Globe and Mail "Architecture blogger Geoff Manaugh's fascinating book A Burglar's Guide to The City posits that our living and working spaces, no matter how seemingly secure, are proving grounds for small-time crooks and sophisticated criminals alike; a smart thief will calibrate his routine based on the way a specific structure is designed. Manaugh's book locates the spot where architecture and crime intersect."

A Burglar's Guide to the City is a crackenjack intellectual caper. Tom Vanderbilt, New York Times bestselling author of You May Also Like and Traffic. Despite its title, Geoff Manaugh's A Burglar's Guide to the City won't teach you how to break into houses. It won't help you outsmart wily cat burglars with ingenious home alarm systems, either.

A Burglar's Guide to the City eBook: Manaugh, Geoff ...

Full review and highlights at https://books.max-nova.com/burglars-guide "A Burglar's Guide to the City" plays with the subversive idea that "burglars are idiot masters of the built environment, drunk jedis of architectural space." Exploring the exotic ways that criminals exploit architectural weaknesses, Manaugh walks us through some of the most famous heists in history and how creative uses of the built environment played a role in their success.

A Burglar's Guide to the City by Geoff Manaugh

Burglars can make powerful attacks after they achieve a critical hit (see Burglar's Advantage, Double-edged Strike, Exposed Throat, and Flashing Blades). Therefore, one of the Burglar's most important stats is Critical Rating, which dictates the chance of making critical hits. While Agility and Fate increase Critical Rating to some extent, maximally effective Burglars will want an even greater increase.

Guide to the Burglar - Lotro-Wiki com

In the interests of fairness and balance, let me add that the book is reasonably well-written and if I had been looking for a book about a journalist gathering material for a book called the 'Burglar's Guide to the City' I might have been happy enough to read this one. The title and synopsis are highly misleading. One star.

" A Burglar's Guide to the City is a masterpiece of mad ideas, pouring out one after another. The book is one of the most enjoyable volumes of the year." —The Washington Free Beacon "Manaugh turns the building world inside out in this fascinating view of the modern city as seen through the eyes of a potential burglar..."

A Burglar's Guide to the City. Manaugh, Geoff ...

Burglary, also called breaking and entering and sometimes housebreaking, is illegally entering a building or other areas to do something illegal there. Usually that offence is theft, but most jurisdictions include others within the ambit of burglary. To commit burglary is to burgle, a term back-formed from the word burglar, or to burglarize.

For ratings of big-name burglar alarm brands, such as ADT, Honeywell and Yale, based on the experiences of 2,083 alarm owners*, visit our guide to the best burglar alarm brands. Wireless burglar alarms. The second decision you'll need to make is whether to opt for a wireless alarm system or a traditional wired one.

Encompassing nearly 2,000 years of heists and tunnel jobs, break-ins and escapes, A Burglar's Guide to the City offers an unexpected blueprint to the criminal possibilities in the world all around us. You'll never see the city the same way again. At the core of A Burglar's Guide to the City is an unexpected and thrilling insight: how any building transforms when seen through the eyes of someone hoping to break into it. Studying architecture the way a burglar would, Geoff Manaugh takes readers through walls, down elevator shafts, into panic rooms, up to the buried vaults of banks, and out across the rooftops of an unsuspecting city. With the help of FBI Special Agents, reformed bank robbers, private security consultants, the L.A.P.D. Air Support Division, and architects past and present, the book dissects the built environment from both sides of the law. Whether picking padlocks or climbing the walls of high-rise apartments, finding gaps in a museum's surveillance routine or discussing home invasions in ancient Rome, A Burglar's Guide to the City has the tools, the tales, and the x-ray vision you need to see architecture as nothing more than an obstacle that can be outwitted and undercut. Full of real-life heists–both spectacular and absurd–A Burglar's Guide to the City ensures readers will never enter a bank again without imagining how to loot the vault or walk down the street without planning the perfect getaway.

A look inside the minds of more than 100 active burglars.

B is for Burglar, from Sue Grafton's #1 New York Times bestselling Kinsey Millhone Alphabet mystery series Beverly Danziger looked like an expensive, carefully wrapped package from a good but conservative shop. Only her compulsive chatter hinted at the nervousness beneath her cool surface. It was a nervousness out of all proportion to the problem she placed before Kinsey Millhone. There was an absent sister. A will to be settled—a matter of only a few thousand dollars. Mrs. Danziger did not look as if she needed a few thousand dollars. And she didn't seem like someone longing for a family reunion. Still, business was slow, and even a private investigator has bills to pay. Millhone took the job. It looked routine. Elaine Boldt's wrappings were a good deal flashier than her sister's, but they signaled the same thing: The lady had money. A rich widow in her early forties, she owned a condo in Boca Raton and another in Santa Teresa. According to the manager of the California building, she was last seen draped in her \$12,000 lynx coat heading for Boca Raton. According to the manager of the Florida building, she never got there. But someone else had and she was camping out illegally in Mrs. Boldt's apartment. The job was beginning to seem a bit less routine. It turned tricky when Beverly Danziger ordered Millhone to drop the case and it took on an ominous quality when Aubrey Danziger surfaced, making all kinds of wild accusations about his wife. But it only became sinister when Millhone learned that just days before Elaine Boldt went missing, her next-door neighbor and bridge partner had been murdered and the killer was still at large. A house destroyed by arson. A brutally murdered a woman. A missing lynx coat. An apartment burgled of valueless papers, another ransacked in a melee of mindless destruction. And more murder. As Millhone digs deeper into the case, she finds herself in a nightmarish hall of mirrors in which reality is distorted by illusion and nothing—except danger—is quite what it seems. The Burglar's Christmas was originally published near the beginning of Willa Cather's writing career in 1896 under the pseudonym of Elizabeth L. Seymour. The story follows William Crawford on the cold streets of Chicago as he contemplates the multiple failures plaguing his life, including his time at college and careers in journalism, real estate, and performing. Distracted, he tries one more role: thief. Attempting to burgle a residence and caught in the act by the lady of the house, William must come to terms with the choices that led him to that moment. Cather provides a heartwarming short story of redemption and love at Christmas, a timely reminder that kindness is in everyone, just waiting to be uncovered.

A cunning thief is on the run for her life in a breakneck thriller from the New York Times–bestselling “master of nail-biting suspense” (Los Angeles Times). Elle Stowell is a young woman with an unconventional profession: burglary. But Elle is no petty thief—with just the right combination of smarts, looks, and skills, she can easily stroll through ritzy Bel Air neighborhoods and pick out the perfect home for plucking the most valuable items. This is how Elle has always gotten by—she is good at it, and she thrives on the thrill. But after stumbling upon a grisly triple homicide while stealing from the home of a wealthy art dealer, Elle discovers that she is no longer the only one sneaking around. Somebody is searching for her. As Elle realizes that her knowledge of the high-profile murder has made her a target, she races to solve the case before becoming the next casualty, using her breaking-and-entering skills to uncover the truth about exactly who the victims were and why someone might have wanted them dead. With high-stakes action and shocking revelations, The Burglar will keep readers on the edge of their seats as they barrel towards the heart-racing conclusion. “The fact is, there are probably only half a dozen suspense writers now alive who can be depended upon to deliver high voltage shocks . . . Thomas Perry is one of them.” —Stephen King

The never-before-told full story of the history-changing break-in at the FBI office in Media, Pennsylvania, by a group of unlikely activists—quiet, ordinary, hardworking Americans—that made clear the shocking truth and confirmed what some had long suspected, that J. Edgar Hoover had created and was operating, in violation of the U.S. Constitution, his own shadow Bureau of Investigation. It begins in 1971 in an America being split apart by the Vietnam War . . . A small group of activists—eight men and women—the Citizens Commission to Investigate the FBI, inspired by Daniel Berrigan's rebellious Catholic peace movement, set out to use a more active, but nonviolent, method of civil disobedience to provide hard evidence once and for all that the government was operating outside the laws of the land. The would-be burglars—nonpro's—were ordinary people leading lives of purpose: a professor of religion and former freedom rider, a day-care director, a physicist, a cab driver, an antiwar activist, a lock picker, a graduate student haunted by members of her family lost to the Holocaust and the passivity of German civilians under Nazi rule. Betty Medsger's extraordinary book re-creates in resonant detail how this group of unknown thievs, in their meticulous planning of the burglary, scouted out the low-security FBI building in a small town just west of Philadelphia, taking into consideration every possible factor, and how they planned the break-in for the night of the long-anticipated boxing match between Joe Frazier (war supporter and friend to President Nixon) and Muhammad Ali (convicted for refusing to serve in the military), knowing that all would be fixated on their televisions and radios. Medsger writes that the burglars removed all of the FBI files and, with the utmost deliberation, released them to various journalists and members of Congress, soon upending the public's perception of the inviolate head of the Bureau and paving the way for the first overhaul of the FBI since Hoover became its director in 1924. And we see how the release of the FBI files to the press set the stage for the sensational release three months later, by Daniel Ellsberg, of the top-secret, seven-thousand-page Pentagon study on U.S. decision-making regarding the Vietnam War, which became known as the Pentagon Papers. At the heart of the heist—and the book—the contents of the FBI files revealing J. Edgar Hoover's "secret counterintelligence program" CONTELPRO, set up in 1956 to investigate and disrupt dissident political groups in the United States in order "to enhance the paranoia endemic in these circles," to make clear to all Americans that an FBI agent was "behind every mailbox," a plan that would discredit, destabilize, and demoralize groups, many of them legal civil rights organizations and antiwar groups that Hoover found offensive—as well as black power groups, student activists, antidraft protesters, conscientious objectors. The author, the first reporter to receive the FBI files, began to cover this story during the three years she worked for The Washington Post and continued her investigation long after she'd left the paper, figuring out who the burglars were, and convincing them, after decades of silence, to come forward and tell their extraordinary story. The Burglary is an important and riveting book, a portrait of the potential power of nonviolent resistance and the destructive power of excessive government secrecy and spying.

King of Heists is a spellbinding and unprecedented account of the greatest bank robbery in American history, which took place on October 27, 1878, when thieves broke into the Manhattan Savings Institution and stole nearly \$3 million in cash and securities—around \$50 million in today's terms. Bringing the notorious Gilded Age to life in a thrilling narrative, J. North Conway tells the story of those who plotted and carried out this infamous robbery, how they did it, and how they were tracked down and captured. The robbery was planned to the minutest detail by criminal mastermind George Leonidas Leslie—a society architect and ladies' man whose double life as the nation's most prolific bank robber led him to be dubbed the "King of the Bank Robbers." The New York Times proclaimed the 1878 heist "the most sensational in the history of bank robberies in this country." An absorbing tale of greed, sex, crime, betrayal, and murder, King of Heists blends all the richness of history with the thrills of the best fiction.

Bernie Rhodenbarr is a personable chap, a good neighbor, a passable poker player. His chosen profession, however, might not sit well with some. Bernie is a burglar, a good one, effortlessly lifting valuables from the not-so-well-protected abodes of well-to-do New Yorkers like a modern-day Robin Hood. (The poor, as Bernie would be the first to tell you, alas, have nothing worth stealing.) He's not perfect, however; he occasionally makes mistakes. Like accepting a paid assignment from a total stranger to retrieve a particular item from a rich man's apartment. Like still being there when the cops arrive. Like having a freshly slain corpse lying in the next room, and no proof that Bernie isn't the killer. Now he's really got his hands full, having to locate the true perpetrator while somehow eluding the police -- a dirty job indeed, but if Bernie doesn't do it, who will?
