sitios de Internet, y programas de radio y televisión, con el objetivo de ilustrar sus usos en el contexto lingüístico contemporáneo. Cada una de las expresiones tiene sus correspondientes equivalencias en español.

Cognitive linguistics subsumes diverse theoretical approaches sharing a compatible outlook: namely that language reflects the interaction of social, cultural, psychological, communicative, and functional considerations that can be understood only in the context of cognitive development and processing. The editors have organized 27 papers presented at the Third International Linguistics Conference held in the summer of 1993 in Louvain, Belgium, into six somewhat overlapping groupings off theoretical issues concerning the bridges between generative and cognitive

This book sheds new light on language and literature teaching, and offers examples of teaching language in virtual environments. Providing an overview of virtual environments for teaching, it also includes chapters devoted to methodology design for second language teaching in these environments. Further it describes tools for second/ foreign language teaching and proposals for specific second language teaching in virtual environments. Lastly, it presents experiments on literature teaching in virtual environments and discusses the future of technology in education. With interdisciplinary appeal, the book is a particularly valuable resource for scholars with an interest in technology, language teaching and literature teaching.
