inspiring #1 New York Times bestseller from Bishop T.D. Jakes. If you have ever felt misaligned, this book is for you. If you have lost the rhythm, the passion, or the thrill of living in alignment, then keep reading. As He did with the very cells that comprise our bodies and the dry bones that were joined together for new life, God has given us deeper instincts to be attracted to those things that fit a higher and better purpose. Never settle for less than God's best for your life. Some people have the courage to move beyond the ordinary, from the methodical mediocre into the revolutionary realization of where they belong. You can have this sense of belonging only when you connect to your core calling. The calling to creativity, the calling to teach, to give, to build, are all part of allowing your instinct to guide you to the "something more" that you suspect is out there. If you are ready to break through the confines of where you are and discover where you are meant to be, then Instinct is your key! !--EndFragment--

income, former status and a strong work ethic do not prevent you or your friends from becoming members of this non-exclusive club called BROKE! But you should know that you can recover when bad things happen... The only purpose in telling my story is a hope that what I've experienced may help you in your journey to survive and stand tall through a potentially demoralizing process. Many users of wireless devices and services spend money on a regular basis to contact colleagues, friends, or family members who are close by, such as in a warehouse or on a job site, at the mall, or out hiking or camping. Why spend the money when you can contact them for free? Canada's General Mobile Radio Service, or GMRS, uses small UHF two-way radios for short-range wireless communications that cost nothing to the user. Without monthly service, usage, or licencing fees, GMRS is a perfect addition or substitute for other costly wireless services. For businesses, GMRS is perfect for short-range communications on a job site, in and around a warehouse or office building, and for all types of hospitality and retail applications. Personal safety, security operations, customer service, and management/employee intercommunication are just some of the uses corporations, industries, and businesses will find useful from GMRS radios. For personal use, GMRS keeps all members of a group in communications with each other. Shopping in a mall, camping, fishing, hiking, at a carnival or local event,

traveling in two more vehicles, or in and around the house, are just a few of the extensive applications you will discover with GMRS radios. GMRS is also the perfect primary or backup radio communications system for public service, search and rescue, security, intelligence, and military use. With twenty-two available channels and two watts of output power, GMRS radios are far less expensive than commercial handheld radio units of equal specifications. And GMRS gives personal users the freedom to access commercial-quality radio communications for a fraction of the price. All you pay for are the radios. No operating, licencing, or usage fees apply. Communications range over open water is around 8-10km, with reduced range in rural or urban settings. Overall communications range in a warehouse or building setting can cover approximately two hundred thousand square feet, or about twenty floors of a building. The Complete Guide to Canada's General Mobile Radio Service shows you how to choose the right radio for your particular applications, where to buy the radios, radio specifications, gives you great examples of some of the uses of GMRS, and even has a glossary of GMRS terms. If you want or need short-range wireless communications without the costs of current wireless services and devices, GMRS could be the perfect solution. And The Complete Guide to Canada's General Mobile Radio Service is the only reference book that covers everything you need to know to get most out of the service and the radios.

business and in life. Why do we constantly feel overwhelmed by stress, dissatisfied in our careers and relationships, and lacking in real purpose? Why do we seem to sabotage ourselves, hampering our productivity and success? The answer lies in our instincts . . . In every area of life, from business to relationships to health, we act on outdated instincts that were built to help us survive a world ruled by scarcity and danger. But in today's world, those same instincts stop us from succeeding in the environment in which we actually live: a diverse world of abundant choices, and almost limitless connections. Now evolutionary biologist Dr. Rebecca Heiss offers a new approach that harnesses the power of our instincts, and redirects them to work for us rather than against us. Dr. Heiss reveals the science behind our self-sabotaging behaviors, then provides simple, actionable techniques that can rebuild our instinctive minds. Both practical and inspiring, *Instinct* is a roadmap that anyone can use to finally stop living on autopilot, improve productivity and happiness, and consciously craft a better life.

The classic book on the development of human language by the world's leading expert on language and the mind. In this classic, the world's expert on language and mind lucidly explains everything you always wanted to know about language: how it works, how children learn it, how it changes, how the brain computes it, and how it evolved. With deft use of examples of humor and wordplay, Steven Pinker weaves our vast knowledge of language into a compelling story: language is a human instinct, wired into our brains by evolution. *The Language Instinct* received

Faith teaches you how to harness, sharpen, train, and trust your instincts and to trade smarter with your whole mind. Just as important, you'll learn when not to trust your gut—and how to complement your intuition with systematic analysis. You've got a left brain: analytical and rational. You've got a right brain: intuitive and holistic. Use them both to make better trades, and more money!
