Philip M. Bailey Lac Remedies in Practice

Describing the lac remedy themes brings an interesting challenge between describing specific symptoms

of a remedy and identifying broader “themes” and definitive characteristics of a remedy or grouping of remedies. Bailey, as he did before in his book Homeopathic Psychology tends towards more general emphatic themes than merely discussing specific symptom pictures. While that helps in creating an image of gestalt of a remedy or grouping, it can tend to lead to an over-generalization in ...

Lac Remedies in Practice by Philip Bailey; Lectures on Homeopathic Philosophy by James Tyler Kent; Life and Works of James Compton Burnett by John Henry Clark; Materia Poetic by Sylvia Seroussi Chatroux, MD; Miasmatic Prescribing by Dr. S.K. Banerjea; New Bach Flower Body Maps by Kramer and Wild

"The most common personality types recognized by homeopathic practitioners are brought to life in this new book by an insightful physician and homeopath. These thirty-five typologies are described in light of common behaviors, primary emotional tendencies, internal conflicts, and spiritual issues that each of them face. This book is essential for serious students and practitioners of homeopathic medicine, and it will be of use as well to homeopathic patients or anyone interested in typology research."

"Understanding these archetypal personalities enables us to better know ourselves, our family, and the people with whom we interact day-to-day."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

The first installment of Massimo Mangialavori's *Materia Medica Clinica* presents fourteen remedies—some old, some new—in colorful and extensive detail. Here is *Lac leoninum*, the ambitious yet troubled king; *Lac equinum*, the loyal, principled squire; *Lac humanum*, the altruistic yet self-interested servant; and *Lac delphinum*, the warm-hearted humanitarian. Important questions are asked and answered: How do Milk remedies struggle to overcome dependence upon their family? Why are they so indecisive? What differences emerge between remedies made from the milk of wild vs. domesticated, and predator vs. prey animals? Mangialavori elucidates his Method of Complexity via natural history, personality, prominent themes and symptoms with an engaging style that is well-organized and easily accessible. Cured cases provide vivid, real-life portraits, and demonstrate how this *materia medica* derives directly from clinical material. A differential diagnosis, thematic and common ailment repertoires, and repertory additions are also included. Just as milk is associated with the beginning of life, it is fitting that *The Milk Remedies* is the initial book for this evolving series.

In this book, Well proved drugs are selected, Symptoms are collected from well known *Materia Medicas*, Symptoms are arranged from generals to particulars.

This book is the outcome of years of experience of Dr S.K. Banerjea who has mastered the understanding of homeopathic literature. It highlights six methodologies which will enable the prescriber to reach the *simillimum* efficiently and quickly. These include emphasis on aetiologies; totality of physical symptoms; emotional symptoms; behaviour, gesture, posture hobbies; miasmatic totality and homeopathic generalities. This approach towards prescribing is scientific, classical, practical, time tested and repeatedly verified which has been practiced for centuries by Master homeopaths including Drs Kent, Hering, Lippe, Tyler, Nash, etc. The hexagonal representation in the book will enable the prescriber to understand the keywords of the medicine on which major emphasis should be given for prescribing. This book will serve the needs of both students and practitioners.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we

concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

I'll Meet You There is a book that defies classification. With over thirty chapters covering virtually every aspect of life, it can be considered a manual for conscious living. Written by a medical doctor with over twenty-five years of experience as a counselor, homeopathic physician, lecturer, facilitator, and practitioner of meditation, I'll Meet You There sheds light on how anyone can live a life based on awareness rather than ignorance and habitual conditioning. Not since Scott Peck wrote *The Road Less Travelled* has a book been written that challenges our assumptions about life so comprehensively, whilst at the same time offering a clear and easily accessible vision of how Life itself can be allowed to live us, rather than the other way around.
