The only book Michael Jackson ever wrote about his life It chronicles his humble beginnings in the Midwest, his early days with the Jackson 5, and his unprecedented solo success. Giving unrivalled insight into the King of Pop's life, it details his songwriting process for hits like Beat It, Rock With You, Billie Jean, and We Are the World; describes how he developed his signature dance style, including the Moon Walk; and opens the door to his very private personal relationships with his family, including sister Janet, and stars like Diana Ross, Berry Gordy, Marlon Brando, Quincy Jones, Paul McCartney, and Brooke Shields. At the time of its original publication in 1988, MOONWALK broke the fiercely guarded barrier of silence that surrounded Michael Jackson. Candidly and courageously, Jackson talks openly about his wholly exceptional career and the crushing isolation of his fame. MOONWALK is illustrated with rare photographs from Jackson family albums and Michael's personal photographic archives, as well as a drawing done by Michael exclusively for the book. Jackson also shares his personal feelings about some of his most public friends...friends like Diana Ross, Berry Gordy, Quincy Jones, Paul McCartney, Fred Astaire, Marlon Brando, and Katharine Hepburn. He talks openly about the crushing isolation of his fame, of his first love, of his plastic surgery, and of his wholly exceptional career and the often bizarre and unfair rumors that have surrounded it. The blockbuster phenomenon that charts an amazing journey of the mind while revolutionizing our concept of memory An instant bestseller that is poised to become a classic, Moonwalking with Einstein recounts Joshua Foer's yearlong quest to improve his memory under the tutelage of top "mental athletes." He draws on cutting-edge research, a surprising cultural history of remembering, and venerable tricks of the mentalist's trade to transform our understanding of human memory. From the United States Memory Championship to deep within the author's own mind, this is an electrifying work of journalism that reminds us that, in every way that matters, we are the sum of our memories.

Narrates the preparations and activities which culminated in man's first landing on the moon in July 1969.

The history of American dance reflects the nation's tangled culture. Dancers from wildly different backgrounds learned, imitated, and stole from one another. Audiences everywhere embraced the result as deeply American. Using the stories of tapper Bill "Bojangles" Robinson, Ginger Rogers and Fred Astaire, ballet and Broadway choreographer Agnes de Mille, choreographer Paul Taylor, and Michael Jackson, Megan Pugh shows how freedom—that nebulous, contested American ideal—emerges as a genre-defining aesthetic. In Pugh's account, ballerinas mingle with slumming thrill-seekers, and hoedowns show up on elite opera house stages. Steps invented by slaves on antebellum plantations captivate the British royalty and the Parisian avant-garde. Dances were better boundary crossers than their dancers, however, and the issues of race and class that haunt everyday life shadow American dance as well. Deftly narrated, America Dancing demonstrates the centrality of dance in American art, life, and identity, taking us to watershed

The #1 New York Times bestseller! Michael Jackson's one and only autobiography - his life, in his words. With original Foreword by Jacqueline Kennedy Onassis, a new Introduction by Motown founder Berry Gordy, and an Afterword by Michael Jackson's editor and publisher, Shaye Areheart. "I've always wanted to be able to tell stories, you know, stories that came from my soul. I'd like to sit by a fire and tell people stories - make them see pictures, make them cry and laugh, take them anywhere emotionally with something as deceptively simple as words. I'd like to tell tales to move their souls and transform them. I've always wanted to be able to do that. Imagine how the great writers must feel, knowing they have that power. I sometimes feel I could do it. It's something I'd like to develop. In a way, songwriting uses the same skills, creates the emotional highs and lows, but the story is a sketch. It's quicksilver. There are very few books written on the art of storytelling, how to grip listeners, how to get a group of people together and amuse them. No costumes, no makeup, no nothing, just you and your voice, and your powerful ability to take them anywhere, to transform their lives, if only for minutes." -Michael Jackson, in Moonwalk From the 1988 edition: Megastar Michael Jackson's singularly brilliant career and intensely private lifestyle have become a magnificent obsession for millions of rock fans and celebrity watchers throughout the world.
