This book brings together the established field of political communication and the emerging field of critical event studies to develop new questions and approaches. Using this combined framework, it reflects upon how we should understand the expression of democratic participation in mainstream mass media during the 2015 UK General Election and the 2016 referendum on Britain's membership of the EU. Are we now living in an era where democratic participation is much more concerned with spectacle rather than substantive debate? The book addresses this conceptual journey and reflects on differing models of democratic participation, before applying that framework to the two identified case studies.

Finally, the authors consider what it means to be living in a period of democratic spectacle, where political events have become evental politics. The book will be of use to students and scholars across the fields of political science and culture and media studies, as well as wide readers interested in the current issues facing British politics.

Following their New York Times-bestselling graphic novel Feynman, Jim Ottaviani and Leland Myrick deliver a gripping biography of Stephen Hawking, one of the most important scientists of our time. From his

early days at the St Albans School and Oxford, Stephen Hawking's brilliance and good humor were obvious to everyone he met. A lively and popular young man, it's no surprise that he would later rise to celebrity status. At twenty-one he was diagnosed with ALS, a degenerative neuromuscular disease. Though the disease weakened his muscles and limited his ability to move and speak, it did nothing to limit his mind. He went on to do groundbreaking work in cosmology and theoretical physics for decades after being told he had only a few years to live. He brought his intimate understanding of the universe to the public in his 1988 bestseller, *A Brief History of Time*. Soon after, he added pop-culture icon to his

accomplishments by playing himself on shows like Star Trek, The Simpsons, and The Big Bang Theory, and becoming an outspoken advocate for disability rights. In Hawking, writer Jim Ottaviani and artist Leland Myrick have crafted an intricate portrait of the great thinker, the public figure, and the man behind both identities.
