Except for a massacre of five hundred settlers by renegade Creek Indians in the early 1800s, not much bad had happened during two centuries in Little River, Alabama, an obscure Lost Colony in the swampy woodlands of To Kill a Mockingbird country. "We're stuck down here being poor together" is how one native described the hamlet of about two hundred people, half black and half white. But in 1997, racial violence hit Little River like a thunderclap. A young black man was killed while trying to break into a white family's trailer at night, a beloved white store owner was nearly bludgeoned to death by a black ex-convict, and finally a marauding band of white kids torched a black church and vandalized another during a drunken wilding soon after a Ku Klux Klan rally. The Ballad of Little River is a narrative of that fateful year, an anatomy of one of the many church arsons across the South in the late 1990s. It is also much more -- a biography of a place that seemed, on the cusp of the millennium, stuck in another time. When veteran journalist Paul Hemphill, the son of an Alabama truck driver who has written extensively on the blue-collar South, moved into Little River, he discovered the flip side of what the natives like to call "God's country": a dot on the map far from the mainstream of American life, a forlorn cluster of poverty and ignorance and dead-end jobs in the dark, snake-infested forests, a world that time forgot. Living alongside the citizens of Little River, Hemphill discovered a stew of characters right out of fiction -- "Peanut" Ferguson, "Doll" Boone, "Hoss" Mack, Joe Dees, Murray January, a Klansman named "Brother Phil," and his stripper wife known as "Wild Child" -- swirling into a maelstrom of insufferable heat, malicious gossip, ancient grudges, and unresolved racial animosities. His story of how their lives intertwined serves, as well, as a chilling cautionary tale about the price that must be paid for living in virtual isolation during a time of unprecedented growth in America. God's country is in deep trouble.

A veteran journalist's collection of sportswriting on the blue-collar South. Sport mirrors life. Or, in Paul Hemphill's opinion, "Sport is life." The 15 pieces in this compelling collection are arranged along the timeline for an aspiring athlete's dream: "The Dawning," with stories about boys hoping and trying to become men, "The Striving," about athletes at work, defining themselves through their play, and "The Gloaming," about the twilight time when athletes contend with broken dreams and fading powers. Through all the pieces, Hemphill exhibits his passion for the sports he covers and a keen eye for the dramas, details, and hopes that fire the lives of athletes, allowing them to become prototypes of all human existence. Most of the stories have been previously published in such national magazines as Sports Illustrated, True, Life, Today's Health, and Sport. In "White Bread and Baseball," the author chronicles his own boyhood infatuation with the minor-league Birmingham Barons, while in "Yesterday's Hero" he details the sad end of a former All-American football player named Bob Suffridge, a portrait of a lion in winter. "It's a Mad, Mad, Mad Whirl" covers nights on the road with the roller derby, and "Saturday Night at Dixie Speedway" captures all the raucous glory of a stock-car dirt track under the hot lights. "Big Night, Big City" tells of an anxious, small-town high school basketball team facing their crucial chance for glory at a state tournament in Atlanta, and the classic "Mister Cobb" details a personal lesson on sliding the young author received from "the greatest player in the history of baseball." These stories are often bittersweet, emotional, and mythic: little dramas bearing impact and psychological "size." Some of them are distinctively "Dixie," but they ultimately transcend time and place. Frye Gaillard, author of Kyle at 200 MPH: A Sizzling Season in the Petty-NASCAR Dynasty, writes, "For more than 30 years, Paul Hemphill has been one of the finest writers in the South, and I think he proves it again in this collection. He exudes a natural feel for the players and the game,

drawing out the real-life themes of struggle and desire, occasional triumph, and the omnipresent possibilities of heartache and failure. ”

P>Birmingham's history of racial violence and bigotry is the centerpiece of this intense and affecting memoir about family, society, and politics in a city still haunted by its notorious past. In 1963, Birmingham was the scene of some of the worst racial violence of the civil rights era. Police commissioner "Bull" Connor loosed dogs and turned fire hoses on black demonstrators; four young girls at Sunday school were killed when a bomb exploded in a black church; and Martin Luther King, Jr., wrote his famous letter from the Birmingham jail, defending his activism to fellow ministers. Birmingham native Paul Hemphill, disillusioned with his hometown, had left home to pursue a journalistic career, so he witnessed these historic events with the rest of the world through newspaper and television reports. "That grim old steel town," he writes, "was the most blatantly segregated city of its size in the United States of America, and most of us regarded it with the same morbid fascination that causes us to slow down and gawk at a bloody wreck on the highway." Thirty years later, Hemphill returned to Birmingham to explore the depths of change that had taken place in the decades since the violence. In this powerful memoir, he interweaves his own autobiography with the history of the city and the stories of two very different Birmingham residents: a wealthy white matron and the pastor of the city's largest black church. As he struggles to come to terms with his own conflicting feelings toward his father's attitudes, Hemphill finds ironic justice in the integration of his childhood neighborhood and a visit with the black family who moved into his family's former home.

A young girl befriends an elderly woman during the First World War in this remarkable novel by one of Britain ' s best-loved authors Sibyl Jardine, the former best friend of Rebecca Landon ' s grandmother, has recently returned to the Priory, her home at the top of a hill. Rebecca is instantly drawn in by Sibyl ' s magnetic personality and blunt, shocking manner. Decades earlier, Sibyl had left her husband Charles for another man and, as a result, lost her daughter Ianthe. Now she is finally about to meet her three grandchildren, who will become an integral part of Rebecca ' s life as she journeys into adolescence. At the heart of this extraordinary novel is the enigma that is Sibyl Jardine: Is she a saint or a sinner? Is she a duplicitous lover or a woman who has been unjustly punished? Played out in a series of conversations between Rebecca, Sibyl Jardine, Jardine ' s granddaughter Maisie, and a Cockney maid named Tilly, *The Ballad and the Source* is a tale of perception and memory, passion and betrayal, and the fearsome power of a mother ' s love.

Essays debunking the notion that contemporary America is a colorblind society. More than half a century after the civil rights era of the mid-1950s to the late 1960s, American society is often characterized as postracial. In other words, that the country has moved away from prejudice based on skin color and we live in a colorblind society. The reality, however, is the opposite. African Americans continue to face both explicit and latent discriminations in housing, healthcare, education, and every facet of their lives. Recent cases involving law enforcement officers shooting unarmed Black men also attest to the reality: the problem of the twenty-first century is still the problem of the color line. In *Race Still Matters*, contributors drawn from a wide array of disciplines use multidisciplinary methods to explore topics such as Black family experiences, hate crimes, race and popular culture, residual discrimination, economic and occupational opportunity gaps, healthcare disparities, education, law enforcement issues, youth culture, and the depiction of Black female athletes. The volume offers irrefutable evidence that race still very much matters in the United States today.

Puts a human face on the story of the black American struggle for equality in Alabama during the 1960s by examining the commitment and hard work of the thousands of everyday people who took a stand, supported the great leaders such as Martin Luther King, Jr., and changed their times forever.
