Zachary Wong offers practical strategies, skills, and tools to help project managers diagnose and solve their toughest people problems. Based on decades in the trenches, the book shows how to confront and correct bad behavior, increase team performance and inclusion, turn around difficult people and poor performers, get people to do what you want them to do, boost employee motivation and attitude, reduce change resistance and risk aversion, and manage difficult bosses. Wong believes that the best team leaders are problem-solvers and facilitators, so this book provides problem-solving models and tools to diagnose people problems, and facilitative methods, processes, and techniques to correct them. It's an approach that can be personalized to fit any person or situation. Each skill is explained with a well-balanced mix of case stories, examples, strategies, processes, tools, and techniques along with illustrations, graphics, tables, and other visuals to clarify key concepts and their workplace application. To reinforce the most important learnings, Wong includes a "Memory Card" and "Skill Summary" at the end of each chapter. Nothing is harder than leading people and managing project teams. Being successful takes a combination of knowing human psychology, organizational behaviors, and human factors; having supervisory, process, and communication skills; ensuring good teamwork, high integrity, and strong leadership; and having the ability to integrate and apply these skills to a diverse work team. The Eight Essential People Skills for Project Management is designed for individuals, team leaders, and managers who oversee and coordinate the daily performance of others and who are seeking solutions that they can apply immediately.

Whether you're newly together and eager to make it work or a longtime couple looking to strengthen and deepen your bond, Eight Dates offers a program of how, why, and when to have eight basic conversations with your partner that can result in a lifetime of love. "Happily ever after" is not by chance, it's by choice— the choice each person in a relationship makes to remain open, remain curious, and, most of all, to keep talking to one another. From award-winning marriage researcher and bestselling author Dr. John Gottman and fellow researcher Julie Gottman, Eight Dates offers an ingenious and simple-to-implement approach to effective relationship communication. Here are the subjects that every serious couple should discuss: Trust. Family. Sex and intimacy. Dealing with conflict. Work and money. Dreams, and more. And here is how to talk about them—how to broach subjects that are difficult or embarrassing, how to be brave enough to say what you really feel. There are also suggestions for where and when to go on each date—book your favorite romantic restaurant for the Sex & Intimacy conversation (and maybe go to a yoga or dance class beforehand). There are questionnaires, innovative exercises, real-life case studies, and skills to master, including the Four Skills of Intimate Conversation and the Art of Listening. Because making love last is not about having a certain feeling—it's about both of you being active and involved.

Throughout his illustrious career, J. Douglas Holladay has taught generations of executives as well as students in his popular MBA course at Georgetown how to use a holistic approach to defining and reaching success in life and business. Drawn from the insights of his network of famous friends as well as his experiences as an investment banker, White House advisor, diplomat, longtime business professor, and non-profit consultant, the advice in *Rethinking Success* is centered around eight essential questions we must ask ourselves regularly to stay focused, connected, and joyful throughout our working lives. Filled with essential wisdom, *Rethinking Success* is a powerful guide that allows us to do well while staying in tune with the values and beliefs that are most important to us.
