Praise for NONPROFIT SUSTAINABILITY "This is much more than a financial how-to book. It's a nonprofit's guide to empowerment. It demystifies mission impact and financial viability using The Matrix Map to provide strategic options for any organization. A must-read for every nonprofit CEO, CFO, and board member." □ Julia A. McClendon, chief executive officer, YWCA Elgin, Illinois "This book should stay within easy reaching distance and end up completely dog-eared because it walks the reader through a practical but sometimes revelatory process of choosing the right mix of programs for mission impact and financial sustainability. Its use is a practice in which every nonprofit should engage its board once a year." □ Ruth McCambridge, editor in chief, The Nonprofit Quarterly "Up until a few years ago, funding and managing a nonprofit was a bit like undertaking an ocean voyage. Now, it's akin to windsurfing—you must be nimble, prepared to maximize even the slightest breeze, and open to modifying your course at a moment's notice. Innovative executive directors or bold board members who want their organization to be able to ride the big waves of the new American economy must read this book." □ Robert L. E. Egger, president, DC Central Kitchen/Campus Kitchens Project/V3 Campaign "Most nonprofits struggle to find a long-term sustainable business model that will enable them to deliver impact on their mission. Thanks to Jeanne Bell, Jan Masaoka, and Steve Zimmerman help is now in sight. This book offers practical, concrete steps you can take to develop your own unique path to sustainability without compromising your mission." □ Heather McLeod Grant, consultant, Monitor Institute, and author, Forces for Good: The Six Practices of High-Impact Nonprofits "At last! An urgently needed framework to prepare leaders to meet head-on the persistent twin challenges of impact and sustainability. This is a practical tool based on good business principles that can bring boards and staff members together to lead their organizations to sustainable futures." □ Nora Silver, adjunct professor and director, Center for Nonprofit and Public Leadership, Haas School of Business, University of California, Berkeley "Together, Jeanne Bell, Jan Masaoka, and Steve Zimmerman equal wisdom, experience, and know-how on sustainability and lots of other things. Buy, read, and learn from this terrific book!" □ Clara Miller, president and CEO, Nonprofit Finance Fund "Wisdom, experience, and know-how. Buy, read, and learn from this terrific book!" □ Clara Miller, president and CEO, Nonprofit Finance Fund

"This book will be the official reference guide to Sustainable Sites Initiative Rating System, the first national rating system for sustainable landscapes"--

The business case for environmental sustainability is becoming increasingly compelling - but persuading well-established organizations to act in new ways is never easy. This book is designed to support business leaders and organisational scholars who are grappling with this challenge by pulling together leading-edge insights from some of the world's best researchers as to how organisational change in general - and sustainable change in particular - can be most effectively managed.

All profits from the sale of Shiftability will be donated to charity water.org. Acclaimed business leaders Mitch Little and Hendre Coetzee share their decades of expertise in this innovative guidebook focused on helping you succeed in the sales force. The ways we do business and engage with customers are constantly changing in our high-tech, global world. Sales professionals must also change their methods to reach clients. In their book, Mitch and Hendre show how to achieve the mind-set shift you need first in order to have the capacity to change your methodologies. Mitch's expertise comes from leading sales and marketing teams at Microchip Technology, which reached its one-hundredth consecutive quarter of profitability in 2015. Hendre is a transformation specialist and advises business executives and boards on reaching their full potential. Together, these experts identified six core shifts-some surprising-that will empower sales professionals and lead to success. The sales world will continue to undergo dramatic changes. New strategies and methods are essential, but they require the right mind-set. Shiftability lays the necessary mental groundwork sales professionals need in order to implement these changes in methodology and thrive in a new environment. Brent Adamson, author of The Challenger Sale and The Challenger Customer, reiterates the importance of adaptability in the sales profession in his foreword.

21 privately-owned company owners share stories of how they leveraged advisory boards to help them build valuable, sustainable companies.
