I'm trying to use my Netgear N600 as a wireless repeater for my ZYCEL C1100Z. I start with resetting both to factory settings, and my C1100Z set up regularly, it's working fine. I check its mac address and channel, it is on channel 11 and I switch it from auto to 11 so it won't change. I go to my N600 and enable wireless repeating, disable security as required for repeating, set the channel to 11 and enter mac address of the C1100Z.

The easy way to control your home appliances Do you want to control common household appliances and amenities from your smartphone or tablet, wherever you happen to be? Home Automation For Dummies guides you through installing and setting up app-controlled devices in your home, such as heating and air conditioning, lighting, multimedia systems, game consoles, and security and monitoring devices—and even suggests popular products to consider. The saturation of the mobile market with smart devices has led to an upsurge in domestic devices, such as thermostats, refrigerators, smoke detectors, security systems, among others, that can be controlled by those devices. Both Google and Apple offer fully-integrated solutions for connecting mobile devices to home theater and audio systems, and now Google has branched out into smart thermostats and smoke detectors. If you've caught the bug and want to get your feet wet in this cool new phenomenon, Home
